PROFESSIONAL EXPERIENCE

Port 8333 LLC (PubKey Bar & Media House)

Chief of Staff

Associate Intern

New York, NY

January 2025 – July 2026

April 2024 – January 2025

- Promoted from intern to Chief of Staff in nine months; direct report to the CEO of a Winklevoss-backed Series A company spanning Bitcoin hospitality, media, and events across NYC and Washington, D.C., the rooms where the U.S. Bitcoin community actually gathers.
- Owned partner accounts from pre-sale through renewal for Gemini and BTC Inc.: scoped campaigns with senior stakeholders, priced and structured multi-year packages, authored the proposals and pitch materials, and closed and renewed the accounts alongside the CEO, expanding them to \$500K+ in annual revenue across 100+ activations spanning events, content, and brand campaigns.
- Co-produced Hotstyle Takeover III at Tao at the Venetian in Las Vegas with BTC Inc., Matt Odell, and Marty Bent (presented by Block), and produced the Creative Coalition benefit dinner at PubKey DC over White House Correspondents' Dinner weekend (~80 guests): sponsorship decks, ticketing with Bitcoin payments via Zaprite, guest strategy, and run of show.
- Programmed recurring community events, including the Coin Based meetup series on Bitcoin market structure (Jane Street's role in BTC price dynamics, BIP 360 and quantum risk, dormant-coin litigation) and the Pathways to Freedom series with the Human Rights Foundation and NED; wrote the partner-facing and social content behind Gemini, HRF, and Cato Institute campaigns in PubKey's house voice, making complex market topics legible to general audiences.
- Built the digital and data infrastructure behind the events and partner accounts: a live venue video wall streaming Gemini prediction-market odds and BTC price feeds, password-gated event microsites, a ticket-sales dashboard integrating the Luma and Zaprite APIs with Bitcoin payment tracking, and a Python revenue-intelligence platform (six APIs, 50+ datasets) that defined the KPIs leadership steered on and isolated which growth levers actually moved performance.

Compass Real Estate

Data Analyst

Darien, CT

June 2023 – December 2023

- Automated quarterly reporting for six Fairfield County markets with Python (pandas) workflows across 10+ years of residential sales data; built dashboards tracking performance, market share, and transaction trends for 30+ agents, the reporting regional leadership relied on to set strategy.

Blue Arch Capital

Summer Analyst

Miami, FL

Summers 2021 & 2022

- Underwrote two commercial real estate acquisitions totaling \$8M+, building cash flow projections from lease terms, occupancy history, market comparables, and NOI assumptions; screened multifamily acquisitions for investment committee review.

EDUCATION

Columbia University

B.S. in Applied Mathematics

New York, NY

May 2025

College of the Holy Cross

B.A. in Mathematics & Renaissance Studies

Worcester, MA

May 2023

Five-year dual-degree program combining liberal arts at Holy Cross with applied mathematics at Columbia Engineering. Holy Cross Student Investment Fund: Portfolio Manager (2022–2023), Analyst (2020–2022).

SELECTED WORKS — IGGYDAGS.GITHUB.IO

Mantle, a real-estate marketing and deal platform: authored a 17,000-word product thesis defining the market opportunity, positioning, and a four-tier pricing model benchmarked against a \$12,800 incumbent vendor stack, then built and deployed the product it describes across 13 production surfaces.
